- 5 My older brother usually lives in the USA, but he's staying with us at

VOCABULARY

4 Complete the sentences with the words in the box. There are more words than you need.

satellites energy access battery air solar power pumps

My parents always say that technology has changed people's lives so much since they were young. And we've come to rely on technology for our everyday lives – like (1) to the internet, for example. And we realise how much we need our mobiles when we suddenly find the (2) is dead and we can't make calls. One of the biggest advances has been due to devices like (3), which we use in navigation to help us find our way. But everything has a disadvantage. All of these devices need more (4) to make them work and that can bring more environmental problems. But if we invest more in sources like (5), we might find solutions to these problems.

5 Read the descriptions and complete the words. The first letter is there to help you.

- | | |
|--|--------|
| 1 a living thing, such as an ant or a whale | C..... |
| 2 plants that are grown in fields and give us food | C..... |
| 3 the number of people living in a country | p..... |
| 4 the environment that orangutans like to live in | r..... |
| 5 where fish such as tuna live | O..... |
